Subject: Current Status of IVB2 Management Team

Importance: High

Good morning, all and Happy New Year!

I hope that your holiday season has been filled with some joyful memories and that this message finds you and your families well during this still very challenging time. Here's hoping to a brighter and safer 2021 new year!

I realize that the I, and the PMs/SRS, have been somewhat conspicuously quiet over the last few weeks, so I wanted to quickly let you know that the IVB2 management team has been completely consumed with its work on aldicarb and associated documentations required by senior management and the AA. With that in mind, we are regrettably having to cancel and/or reschedule generals, meetings, and other scheduled activities to provide time to complete the aldicarb risk management goals. Therefore, we ask for your patience during this period, and we hope that we will be back to some state of normalcy by the middle of next week (i.e., January 13th). Nevertheless, if there are time-sensitive issues that can't wait (e.g., renegotiations, etc.), please proceed to let us know, and please continue to keep up the excellent work! Looking forward to talking with each of you real soon!

Best regards,

Marion J.
